

Welcome to the American Saddlebred Sport Horse.

Here we celebrate his history and heritage, his power-house trot and natural engagement and his ideal temperament that makes him so willing to please and a joy to ride.

Where else can you find a horse who can perform easily at Novice and above level at ease, who's athleticism makes an ideal dressage horse?

Where else can you find a horse who naturally trots faster than most horses canter and do it for mile after mile and has a great heart recovery rate?

Where else can you find a horse that has two extra gaits, both lateral and so ideal for those not wanting to trot, yet still want to cover the ground at speeds of up to

30mph and do it in style?

Where else can you find a horse who's willingness to please and natural build makes him an ideal candidate for the show jumping ring?

Where else can you find a horse who can do ALL these jobs, be handled and ridden by any member of the family and who is simply a joy to own?

Where else, but on an American Saddlebred Sport Horse - he'll take you there.

Welcome to the American Saddlebred Show Horse.

Here we celebrate his history and heritage, his up-headed way of going, his magnificent trot, his unrivalled slow gait and rack and his unique position as the "peacock of the show ring".

Where else can you find a horse who's head is level with yours when you ride him, yet is still engaged with his hocks, round in his back and flexed at the poll?

Where else can you find a horse who naturally trots with his forearm horizontal and will gladly trot faster than most horses canter

and do it for mile after mile?

Where else can you find a horse that has two extra gaits, both lateral and so ideal for those not wanting to trot, yet still want to cover the ground at speeds of up to 30mph and do it in style?

Where else, but on an American Saddlebred Show Horse - he'll take you there.
